

erally and at the same time give that shoulder muscle a rest.

"In some ways golf is like baseball. In golf the thing to do is to keep your eyes on the ball and your mind on what should be done with it. In baseball a pitcher has to keep his eye on the batter and watch his every move. He has to keep his mind on pitching and not think of the crowd.

"The swing in golf is different than the swing of a ball bat, but a fellow who plays baseball has an advantage, I think. His muscles are trained to co-ordinate and he is accustomed to using them more than the average person."

Matty is always businesslike and he has gone to this thing of getting back to his old pitching form by playing golf in a businesslike manner. He is confident the system will be a winner.

WONDER IF WE'VE GOT A RIGHT TO HAVE YELLOW JAUNDICE?

Pretty soft for this Yellow Taxi Cab bunch.

They got together about six months ago, put up a lot of cash, advertised in the newspapers that they were going to operate yellow cabs and then, when they got into business, secured injunctions preventing the indiscriminate use of yellow by cab owners.

They went into court and had two hardworking cab owners fined \$50 and costs just because they painted their taxis yellow after the fashion of the cab company, which seems to have a patent or copyright or something on yellow.

Judge Smith in the circuit court did the work yesterday.

My daughter and her beau took a photo Sunday. This evening they spent a half hour in the dark room developing. I asked them when they came out if they had developed the negative. The young man replied that they had also developed an affirmative.

SUITS AGAINST SOME QUEER APPRAISALS GOING NICELY

The suits to set aside the queer appraisals of school properties are progressing.

Rosalie Cavanna of Paris, France, filed answer to the board of education. She says the 1915 valuation of the State street lot which she holds under a school lease is not too small.

However, Mrs. Cavanna has leased the lot, between Monroe and Madison, to Ike Bezark at a figure much greater than the one she pays the school board. Part of the difference she spends in living in Paris.

The lot was valued at \$407,600 by the appraisers. They admitted that they had taken off 15 per cent of the valuation because of bad business, the war and several other things.

These etceteras, according to members of the school board who want to see the children get the money which belongs to them for their land, should not figure in the setting of rentals as the appraisers had only the right to determine the true cash value of the school property.

CITIZENS' TRAFFIC ASS'N TO GET AFTER AUTO SPEEDERS

Mayor Thompson has been instructed by the council to appoint a committee of citizens to be known as the citizens' traffic com'n.

Municipal Judge Joseph Sabath, speeders' court, is the sponsor of this order, which he holds will curb many violations of traffic and speed law by autoists.

Today the judge will head a committee which will call on the governor. They will ask him to include in his call for a special session of the legislature a bill imposing a prison fine on speeders and persons who drive auto while intoxicated.

"We also need a law which will compel a more strict examination of persons driving an auto," said the judge.
